Black History Month: Henrietta Lacks and her Immortal Life

Born in 1920, she was one of ten children and the mother of five children. After giving birth to her last child, she noticed a knot in her stomach and had severe bleeding. She went to Johns Hopkins Hospital where she was diagnosed with a malignant epidermoid carcinoma (cancer) of the cervix. Lacks was treated with radium tube inserts, however, it did not help and the cancer ended up metastasizing to most of her body, killing her in 1951 at the young age of 31.

During the course of her treatment, two samples of her cancer cells were taken by Dr. Howard W. Jones without her consent or knowledge. Her cells were then given to his colleague Dr. George Gey, a cell biologist at Johns Hopkins who isolated the cancer cells and named them HeLa (to anonymize them). Realizing that her human cells grew outside of the body exponentially they were used in the growth of modern medicine to treat and understand diseases such as Polio, HIV/AIDs, cancer and so on. Researchers at Johns Hopkins had used the HeLa cells for research for well over 25 years prior to the family being informed of the immortal contribution Henrietta unwillingly made to modern science/medicine. Although this is not the first time Black Americans have been unwillingly and unknowingly for scientific advancement (Tuskegee); a very needed dialogue and policy on medical and scientific ethics developed from this case. Nonetheless, Mrs. Lacks will forever be remembered, honored, and appreciated for the contributions to human genome studies and modern medicine.

FHSU and K-State Juvenile Justice Initiative Seeks Locals

A team from Fort Hays State University is partnering with the K-State Juvenile Justice Collaborative on a project awarded funding by the Kansas Department of Corrections and the Kansas Advisory Group. The project, titled “Our Town, Our Kids,” aims to work with local communities in developing support systems for youth and families in order to prevent youth from entering the juvenile justice system and to provide services that maximize their chances of leading productive, successful lives. Michael Walker, director of the Docking Institute, and Dr. April Terry, assistant professor in the Department of Criminal Justice, are providing content expertise in the areas of data management and juvenile justice. They are joined by Luis Montelongo and Dr. Jian Sun as data analysts. The K-State JJC is comprised of Dr. L. Susan Williams, professor of sociology and criminology; Dr. Greg Paul, associate professor and interim department head of communication studies; Dr. Elaine Johannes, associate professor of family studies and human services and Extension specialist; and Bruce Chladny, K-State Research and Extension specialist.

Over the next two years, the group will work with stakeholders in 23 pre-selected Kansas counties (please see the website for a full list). They will build community capacity in data collection and analysis and foster community collaboration in support of youth and families. Professionals from K-State Research and Extension will facilitate local conversations that identify areas of concern and develop knowledge bases that will prepare communities to deliver best-practice programs in their respective areas. As part of the effort to engage positive community support, the group will develop a comprehensive toolkit for all Kansas communities that will facilitate local, sustainable systems that serve unique needs of youth.

If you have knowledge of any of the 23 pre-selected counties, and are interested in having your voice heard on issues related to youth in Kansas, please contact a team member below.

Student Recognition Programs

Greetings, friends! We are very excited to invite you in advance to this spring’s upcoming annual **Student Recognition Programs**. As you may know from past years, SRPs are reception-style events held on-location throughout our Kansas, Nebraska, and Colorado recruiting territories. We will be travelling to Future Tigers’ hometowns in an attempt to bring Fort Hays *to* them, *for* them.

Your enthusiastic participation is crucial to the success of these events! These programs are essential during the recruitment process in solidifying our prospective students' decision to become Tigers. For example, following last year's Topeka SRP, 45 out of the 47 students in attendance ultimately chose Fort Hays! **Overall, 82% of the 2018 SRP attendees became Tigers. Way to go, team!** Without your participation, this great return would not have become a reality.

As a reminder, alumni members and non-academic groups (clubs, organizations, etc.) are also welcome to join us on the road. The Office of Admissions will be providing transportation again this year for those who wish to travel with us. Please contact Jon Armstrong at (785) 628-4091 or jdarmstrong@fhsu.edu with any questions or interest in SRP participation.

To view the schedule of events, please visit <https://www.fhsu.edu/admissions/srp>.

For the first time in university history, a seminar course focused on Latino political opinion formation and socio-political behavior is being offered by the Political Science department. The online seminar will explore a wide array of topics, such as the following:

- What are the social and political factors that led to the development of the pan-ethnic labels of Hispanic and Latino to describe diverse ethnic groups?
- Which considerations can consistently predict whether individuals are comfortable identifying as being a member of a pan-ethnic group?
- Why do major Latino ethnic groups display differences in ideological views and voting participation levels?
- Under what circumstances do Latinos form political alliances with other prominent racial/ethnic groups (e.g. African Americans, Asian Americans, etc.)?
- How might recent controversies regarding immigration policy shape Latino political attitudes or beliefs about the American political system?

The seminar will be offered in the second half of the Spring 2019 semester (03/18/19 - 05/17/19). For additional information about the course, please contact Dr. Christopher Olds at cpolds@fhsu.edu.
